

ATTENTION PARENTS OF 7th GRADERS

Parent Email Addresses:

There are tools in Infinite Campus , our student information system, that allow teachers and administrators to communicate with parents via email. In order to utilize these tools, we need you to enter your email address in the Parent Portal. To enter your email address, select "Change Contact Info" on the left side of the page after you have logged in to the Parent Portal. Enter your email address in the box on the top of the screen and select Save. After selecting save, you will have the option of selecting the types of messages that you wish to receive. We recommend that you select all 5 options for High Priority, Attendance, Behavior, General and Teacher messages, and then select Save again.

Thanks,

The Tech Department and Teachers
